RE: European Union Directive (EU) 2015/863/EC

Dear Customer,

Rockwell Automation is committed to demonstrating the highest standard of global environmental management. We embrace this as a core value and an integral part of all operations and seek continual improvement of our environmental management system and performance.

Our dedication is demonstrated by our compliance efforts as they apply to the following regulation:

European Union Directive (EU) 2015/863/EC to amend Annex II to European Union Directive 2011/65/EU —Restriction of Hazardous Substances (RoHS) This Directive restricts the use of additional 4 Phthalates substances in electrical and electronic equipment. Most Rockwell Automation products fall into EU RoHS Category 3 (IT and Telecommunications Equipment) or Category 9 (Industrial Monitoring and Control Instruments). Rockwell Automation products currently required to comply with this amended Annex II ROHS directive are Category 3 products (IT and Telecommunications Equipment) such as industrial computers, monitors, and accessories by **July 22nd, 2019**.

Furthermore, Rockwell Automation's goal is to meet the **European Union Directive (EU) 2015/863/EC** material restrictions and conformity assessment for all of our **Category 9 products (Industrial Monitoring and Control Instruments)** prior to the mandatory date of **July 22nd, 2021**.

Further information about ROHS status may be found by sending a request to

ProductStewardship@rockwellautomation.com

Sincerely,
Product Stewardship Team.

Rockwell Automation
