Largest electrical
distributor nationwide

We have carefully chosen our long-term partners because we operate as equals in a spirit of mutual trust. This allows us to offer cutting-edge innovations and solutions while creating a package tailored to your needs. We value intensive and professional cooperation with our partners and transfer our bundled expertise to you.

Power electronics, remote maintenance, energy distribution, control cabinet construction or cabling components – these are just some of our partner specializations that can contribute to delivering your solutions. Achieving success as partners is our aim. Globally and locally.
